The 35th Ave Health Consultation has been drafted and is being internally reviewed at ATSDR. We were able to get the data and the health assessor turned around the drafting of the document quickly. The plan is to send the draft pre-decisional HC to EPA next week for a data validation review. I can probably get this version to you, as I expect Reg 4 to comment. This looks good for

the timeline we discussed, having the pre-clearance document by mid-May and the final by mid to late August for the NPL package.
